Entry level:

Git / Python / Web Development: HTML 5, CSS, JavaScript / UNIX

COMMUNICATION AND INTERPERSONAL SKILLS

Teamwork

I have teamwork experience from participating in many school projects and contests:

- 2016:
 - InfoSmart, organized by Faculty of Economics and Business Administration, Galați
 - 1st place - National Contest "Visual Contest", 12th edition, organized by "Radu Negru" Technological High School, Galați
 - 1st place - Caravan Project "Mă vinde mâine..."
- 2020:
 - 1st place - Hackathon, organized by Faculty of Automation, Computer, Electrical Engineering and Electronics, Galați
- 2021:
 - iDEAS(Intelligent Driving, Engineering and Autonomous Systems), organized by Continental Automotive Romania, Iași

Sociable and Friendly

I developed these skills by participating in contests or events where I interacted with new people and I had the chance to work with teammates I never met before:

- 2015:
 - Teamwork brainstorming activity "Community Development in the Prut Meadow and Danube Delta", organized by Europe Direct Center, Galați
- 2020:
 - YouthSpeak Forum, organized by AIESEC
 - Go Global with Global Volunteer, organized by AIESEC
- 2021:
 - iTEC(IT Engineering Contest) - Web Developing Category, organized by LigaAC, Timișoara

Curious, Determined and Ambitious

I like new challenges and I am always searching for opportunities to push my limits. Since primary school, I participated to romanian language and literature, math and computer science individual contests and olympics. A few recent examples are:

- 2017:
 - InfoSmart, organized by Faculty of Economics and Business Administration, Galați
- 2021:
 - iTEC(IT Engineering Contest) - Algorithms Category, organized by LigaAC, Timișoara
 - Let's learn together - Industrial Developing of WPF software, organized by NAPA

ORGANISATIONAL SKILLS

Organized person

My organisational skills are as follows:

- fast learner and able to easily adapt to the workplace conditions
- very organized as person and as a programmer
- able to respect a deadline
- experienced problem solver

PROJECTS

● **Java Team Project**

I had a team project in 2nd bachelor year where I created a Java GUI Application about a shop where the user can introduce, search and filter 4 types of products.

● **3D Unity Game**

I created a 3D game using Unity Engine and C# language.

● **Java + SQL Desktop Application**

This software is for bookstore management and has two roles: administrator and seller. Using SQL, I implemented CRUD operations for distributors, products, sold items and employees. The user also has the possibility to import from and export to an excel the selected data.

● **Personal site**

<https://ana-camelia.github.io/CV-CSS/>

I created my personal website using HTML and CSS.
